

Annovae™

STEP 3

Annovae Clear Skin - Protecting Moisturizer

This hydrating, skin protecting moisturizer with patented QuSome® technology delivers youth enhancing antioxidants to help reduce the appearance of fine lines and wrinkles. The advanced delivery technology helps accelerate results with improved efficacy, to reveal a smoother, healthier-looking complexion.

Key Performing Ingredients:

***QuSome® technology** : A proprietary molecule for the delivery of the active raw materials, as well as a customized compounding procedure to ensure that the active raw materials are encapsulated and delivered subdermally in their most pristine and active state.

ProRenew Complex CLR : A novel skincare active based on probiotic technology to promote skin renewal. Skin quality is increased, barrier is improved, skin renewal is accelerated, and overall skin health is improved.

Advanced Moisture Complex : A proprietary mixture of active ingredients that have been clinically proven to provide both immediate and long term hydration. Skin is moisturized and softened after application and is able to retain optimum moisture levels all day long.

Benefits:

- Utilizes botanically derived retinol to refine and smooth wrinkles.
- Ideal for people who want the benefits of Retinol that is gentle on the skin.
- Maintains optimal hydration of the skin thanks to a combination of moisturizers.
- Free radical scavenging antioxidants prevent the negative effect of environmental stressors.
- Plumps and increases elasticity with overall radiance and more youthfulness.
- Safety tested.

*QuSome® is a patented delivery technology and registered trademark of BioZone Laboratories, Inc.
